

---

—The Railroad Commissioners paid their visit here last Friday afternoon. They had a very lonely visit, as not a single citizen was at the depot to meet them. This was not because the G. N. is giving any satisfaction to patrons at this place, but because it is no use to present our complaints to such a board. We tried it once—we see the folly now and do not care to repeat it. Whether our complaints were ever laid before the railroad officials we cannot say, but, anyway, no defects have ever been remedied.
