The American History class have finished the history and took an examination on Monday and Tuesday. The questions on Monday were the ones from the State University, and those on Tuesday were given by the teacher, L. E. Marsh. The papers have not been corrected yet so that the scholars do not know whether they were conditioned or not.

Thirty thousand children are receiving instruction in sewing in Chicago in connection with the public schools, at an annual expense of \$100,000. The meetings are held on Saturday morning.

Besides this, the four lower school grades are instructed in sewing one hour per week from actual school time.

"The report of the school board of Manchester, N. H. contains the following: Manual training has so many good points in its favor and is spoken of so highly by those who have introduced it that we cannot afford longer to be without a practical test of its merits."

The following is a picture story from the 3rd grade, Primary Dep't.

Millie And May.

Millie and May were two little girls. Millie is about five years old and May is seven years old. One day Millie had on her best dress and she fell and tore it and May sewed it up for her. Millie has a nice hat on and May's hat is on the floor. May has long hair. Millie is looking in the looking glass.

May and Millie are taking a walk in the country. Millie has a pocket book with a ribbon on it. I guess they are going to buy some candy. They are on the side-walk. May has a parcell.
