

---

—Wm. A. Spooner departed Saturday last for New York City, and from thence he will embark across the briny deep for a visit with relatives in "Old Mother England." He will return to this country in the spring and after a visit to old familiar places in Texas and Florida, will again return to North Dakota, the state of his adoption, and embark in the sheep industry in Steele county, and on a large scale. His host of friends in this vicinity wish him a prosperous voyage and a pleasant visit, and will warmly welcome him back among them when it pleases him to return.
