Roy Cornick, the 8 year old son of Lyss Cornick, was run over by a freight engine last Saturday evening at the Depot crossing and had his right foot taken off. His foot caught between the plank and the rail and he could not extricate himself before the train which was moving slowly, was upon him. Daisy Carl saw him and tried to pull him out, but could not do so. However she pulled his body clear of the track, undoubtedly saving the boy's life.

Dr. Lang, assisted by Dr. Barton, amputated the leg below the knee joint, and the patient is getting along nicely.
