

On their way home from Coopers-
town Friday evening, Mrs.
Edwin Bailey and her daughters
had a collision with a large car
occupied by H S. Halvorson and
George H. Condy of Coopers-
town. The latter car was going
east and there was also one com-
ing behind the Bailey's car. The
lights from the two were so
strong that, in order to play
safe, she pulled to the side of
the road and came practically
to a stop, but the Cooper men
failed to give their share of the
road, and consequently crashed
into the Sutton car, ripping off
a fender, the tool box and one
wheel besides damaging the ra-
diator and doing some other
injury which put the car entirely
out of business. Mrs. Bailey
was compelled to go to a farm
house some distance away and
telephone for her husband to go
after them. From all appear-
ances the fault lay with the
other parties.
