

---

J. A. DeJean has been wearing a bandage on his head as a result of an auto spill Sunday morning on the curve near Lew Martin's. He, John Sutton and Wm. Watson were riding with Herman Peterson on a fishing trip and as they approached the curve the car refused to make the turn and went straight ahead across a rather wide ditch. No one was hurt much except Shorty, even the car being able to return home later under its own power after a few repairs.
