

Leslie Dietz, son of John Dietz of Cameron Dam fame gave a movie show in Sutton Wednesday night. His films are chiefly based on the events that took place at the time of the trouble between Dietz and the lumbermen of northern Wisconsin. He is also securing signers to a petition asking for a pardon from the governor of Wisconsin for his father, who was sentenced to the penitentiary several years ago for manslaughter. We learned incidentally this week that M. A. Sischo was an eyewitness of the battle that occurred at Cameron Dam, and that he knows all of the facts concerning the trouble.
