

The 8-year old son of D. A. Thomas had one of his legs broken one day last week. Dr. Wauner report it as being one of the worst breaks he has seen. The fracture is just above the knee and was caused from the limb being caught in a buggy wheel. The children were returning from school in a spring wagon and the unfortunate boy was getting in and out of the rig while it was moving and his leg was caught between the spokes of the wheel.
