

## A Serious Accident

Dr. Rasmusson received word Wednesday, from Mrs. J. B. Durkee, formerly of this place, but now of Glasgow, Mont., stating that their little daughter lies in a hospital there in a serious condition, caused from an accident which happened while coasting down a hill.

The full particulars were not given as to the time and minute details of the accident, but the letter made known the fact that one of her kidneys would have to be removed. This is certainly sad news to the family's many friends here, all of whom will hope that her life may be spared.
