

Mrs. C. A. Edwards and children departed Friday morning for their new home at Big Sandy, Mont., and will take up life on a claim for a few years. Mrs. Edwards and Clarence each have a homestead which they will farm this year and it is the wish of their many friends that their labors will bring good returns when harvest time comes. It is with great regret that we see this estimable family leave our little city, and from the number of our worthy citizens who have already settled near Big Sandy, it is evident that there will be a very good class of people in that locality.
