TAMMANY LEADER IS SLAIN

New York Gangsters Charged With Committing Deed.

New York, April 6.—Eugene Smith, a Tammany political leader, was shot and killed on Park Row by four gangsters.

He was on his way from a ball of one of the East Side Democratic organizations at Tammany Hall. The gangsters, who were seen by only one witness, escaped.

A brother of the slain man said Smith had been mistaken for some one else, but the police were told that Smith had recently become involved in a gang feud and had moved to Brooklyn because of threats against his life.

The Paint That Lasts

Is the cheapest paint to buy, the cheapest paint to put on, and the cheapest paint to keep in good condition. It lasts longest because it is ground in PURE LINSEED OIL. It makes no difference what paint is made of, if it isn't mixed in PURE LINSEED OIL it WON'T LAST.

Minnesota Paints

are mixed and ground in PURE LINSEED OIL of their own manufacture. Most paint grinders buy their oil,—they make theirs from selected Northwestern flaxseed—the best in the world—in their own mills and it never leaves their buildings until it is mixed in Minnesota Paints. The other things in our paints are PURE White Lead, PURE Oxide of Zinc, PURE Tinting Colors and driers. Use them once and you'll never use any other kind.

For 40 Years "The Best Paints Made"

Put up in full Government Measure cans—look better, cover more surface and last longer than any other paint.
