

Ewd. Schumacher, who resides southwest of here, has decided to quit farming and has announced that he will sell all his personal effects at public auction on October 15. He has a large amount of good useful articles for the farm, and a big sale is anticipated. Mr. Schumacher expects to leave in November for the west to look around and if he sees anything that appeals to him he may decide to locate out there. He also expects to visit some of the country before settling down again. We don't like the idea of these good farmers leaving and hope that he will find, after seeing some of the western country, that Stutsman county is as good as any, and that he will again cast his lot here.
