

THE SPIRITWOOD BUGLE

Published as Part of the Courtenay Gazette Every Thursday

Volume 1 Number 12

Spiritwood, Stutsman County, North Dakota, August 8, 1912

Fred Dunwell, Editor

Local Happenings of the Week

Ira Fandray of Bloom was here on Tuesday last.

Prayer meeting every Thursday evening at the church, at 8 p. m.

L. B. Stoaks has completed shingling his house in north of town.

Chas. Frey of Jamestown has purchased a gasoline engine of Fried and Son.

John Squire has completed cutting his barley and rye and thinks it will yield well.

Nick Hoffert drove to Jamestown one day last week after some twine to bind his crop with.

A. L. Orange threshed his rye last week and it yielded him 20 1/2 bushels to the acre. This was sown on fall plowing and did very well.

It beats all how some people can get all the booze they want and cannot even pay their grocery bills. Some one has to suffer for it, but who is it, guess.

Ed Whipple has purchased a butcher shop at this place and expects to open it in the near future. This will be a good thing, so we can get all them eat we want to eat.

Nels Albin of Spiritwood, N. Dak., is another subscriber to the Bugle. This is the idea and we would like to see a lot more do the same thing and get the news of the town and vicinity.

Chas. Diesem left Saturday for LaMoure to get his cook car for threshing. He return home on Monday afternoon. He shipped his separator up from LaMoure by rail and it arrived on Monday also.

Schmitt Bros. have purchased a new Advance separator of the Advance agent at this place and it arrived at Spiritwood and was unloaded the past week. E. J. Hayes is another that has bought and the two came at the same time. They know a good thing when they see it and intend to take care of their crop this year in good shape.

Martin Monek was a caller here last week.

Rounseville and Doty received their second car of twine some few days ago.

W. P. Hayes is enjoying his new Reo auto bought this spring of Anton Fried and Son.

Rob't Schwehr has been hauling a few loads of wheat to the elevator the last few days.

Lot of farmers are building small bins in their fields to hold their abundant crop of grain this year.

Chas Flynn, who has been up in Canada for the last couple of months, is expected home every day now.

There are some reports of black rust, but as general thing there will be a large quantity of wheat raised in this vicinity this fall.

Otto Johnson of Bloom has been "bumped" by an older man on the N. P. and Otto has gone further east to work for the same company.

The report is out that Thos. Davis, Sr., and Nels Albin has purchased a second hand threshing outfit. This has not been confirmed, however, and we cannot vouch as to its truthfulness.

Max Rick had his hand quite badly hurt last Saturday in some way with his binder. He was repairing his binder when his team started up and bruised his hand quite badly.

Martin Rappley has bought an engine to run his cream separator and churn. Martin has quite a bunch of cattle and they yield him a nice sum of money in the course of a year.

Frank Squire is another that has purchased a Cushman binder engine of Rounseville and Doty of this place. This is the 5th engine they have sold of this nature this fall and we predict a good sale on them next year. They are very simple to run and makes the draft of the binder considerable lighter.

J. F. Lueck has built a new granery on his farm north of town.

Everybody is doing it. What? Buying all the twine they can get.

John Woijsie, who live near Fried P. O., was a Spiritwood caller on Tuesday afternoon.

Rev. V. L. C. Merchant made his regular Sunday evening trip to Eckleson on last Sunday evening.

Henry Newstel, who live 11 miles southeast of town was a business caller on Tuesday afternoon last.

A. R. Brimer, Sr. was a Spiritwood caller on business on Tuesday. He drove over in his large White touring car.

E. W. Reidaish is working this week. He is hauling dirt for the drive way for the Rounseville and Doty elevator.

Geo. Dunwell was a Jamestown visitor on Tuesday last also on Friday. He is having some dental work done by Smith.

John Davison has been employed by Rounseville and Doty Hardware Co. and entered into his new duties on Monday last.

Ed Evanson was a Spiritwood caller on Tuesday and he reports that the crop on the old Satchen place is in good shape and he expects to have a good turnout.

Ole Matteson has purchased a new Acme binder of the agents at this place. The new machine is considerable lighter than what is known as the Queen binder and takes well with the farmers wherever sold.

Most of the farmers have been delayed in the cutting of wheat here the first part of the week on account of the wet weather. However some of them started on Tuesday afternoon.

Geo. Scott has the honor this year of being the first man to bring new grain in to the elevator. He brought a load of barley which was threshed on his farm north of town.

Glen Poole, who has been running the gas traction engine for Herman Stoppeworth for the last couple of week, is working now for Chas. Diesem and will run the gas traction engine for him during threshing.

Last Monday was one of the busiest day Spiritwood has seen for some time for the implement and hardware men. Farmers were delayed on account of the rain and took advantage of it and drove to town while nothing else could be done to save time.

Nels Albin left on Sunday evening for his old home in Minnesota in response to a wire that his father had died on Sunday morning. Peter Albin was in the vicinity of 70 years of age when he died. The Bugle condole with them in the loss.

A. P. Paulson of Valley City, is up at his farm on section 9 north of town looking after his interest there. He intends cutting his grain with his gas traction this fall. He has purchased 4 binders of Murphy in Sanborn and expected them in on last Tuesday evening.

Friends of Ed Burrough of Iowa, a brother of Mrs. L. B. Stoaks of this place will be pleased to hear that he is improving and will be glad to hear that he will soon be around a gain. Mrs. Stoaks is not at home yet, she is visiting her folks a while before returning home.

Imported Potatoes.
The secretary of agriculture warns American farmers against using imported potatoes for home production. Europe has several potato diseases not known to this country, and there is danger of introducing these diseases if the imported product is used for seed. The foreign-grown are all right for table use, but for cultivation they carry no little risk.

Just think of it, this paper can be had 52 times for \$1.50.

Good Clothes
