Spiritwood, Stutsman County, North Dakota, September 5, 1912

Fred Dunwell, Editor

## Local Happenings of the Week

Ira Fandray of Bloom was a caller here on Tuesday last.

Mr. Thoms of Jamestown was a Spiritwood caller on Monday last.

Mr. Carmack of Minneapolis is up here running the steam engine belonging to Squire Bros.

J. H. Doty left here on the 28th bound for St. Peter, Minn., to look into his interests there.

Miss Stoppilworth, who formerly worked for Mrs. Squire, is cooking in the Squire brothers' cook car.

Quite a number of threshing rigs are seen going through town bound for the west. The bumper crop must be threshed.

Chas. Diesem had a break down with his threshing separator on Tuesday last and laid up most of the day for repairs.

Will Jensen had a break down on Tuesday last for part of the day with the separator and had to wait to get repairs from Fargo, N. D.

Frank Adams and Millen and Nicholas Adams of the Gypsy tribe arrived here a few days ago to take care of the threshing on their farms.

The home of Mr. and Mrs. Ludvig Vanvick was brightened last Thursday by the arrival of their first born. Papa wears the smile that will not come off while all are getting along well.

Mr. Neil, with Lindsay Bros., was at this berg on Monday last on business. He is a young man who is working his way through college and has taken up work with this company during his vacation.

Miss Iva Coleman of Valley City arrived here Saturday last to take charge of her school here. Miss Dahl, the office teacher, will arrive some time this week. Miss Coleman will make her home with Mr. and Mrs. Geo. Dunwell.

Mr. Newcomb, who spoke here in the church last Sunday was a very interesting talker, and his version of crime and where it begins was a very good one and appealed to his audience. Should he come again he will be greeted as he was on the 1st inst., with a full house.

Miss Dahl, the new school teacher, arrived on No. 7 Tuesday morning, and expects to begin teaching school as soon as the directors have cleaned out the school house for the second time to take precaution against the smallpox that took place in this berg the latter part of the school year.

J. A. Johnson started his threshing rig on Monday last.

Theo. Price is running A. P. Paulson's separator this season.

Fred Freid was a Wimbledon caller on Monday evening, returning on Tuesday morning.

Miss Grace left on Sunday last for Fingal, where she has been employed as principal of the Fingal schools.

The Gypsy tribe are busy now threshing their grain with the second hand threshing rig they bought this fall.

Harry Kavanaugh, with the Agne White Lead and Color Works, called on his trade here on Tuesday last.

Miss Mae Farley came down from Jamestown on Sunday evening last and will visit home a few days before returning home to Jamestown and to her work.

L. B. Steaks and C. I. Bruce have purchased a new Advance separator and a second hand Advance engine and intend to thresh their grain alone this year.

Nicholas and John Adams, a couple of the Gypsy tribe, have arrived here for the threshing. They will stay until it is completed and then will leave again for the sunny south of California.

Will Fletcher, who is working at the school house in Winfield township, went to Jamestown on Saturday evening and spent Sunday at home, returning Sunday evening on No. 8. They are fixing the school there in good shape for the coming school year.

Hunting season will soon be here and we think that there will be a lot of good hunting this year by the packs of the coveys of chickens that are seen this year. Be careful and don't go out before the 7th as the game warden are looking for you.

Walter Hohbert was taken to the hospital at Fargo on Sunday last to be operated on for appendicitis. He was a very sick person as inflammation had set in and it was necessary to operate at once. His mother accompanied him there and will stay for a while.

Mr. Chambard with the Minneapolis Iron Store company, passed through here Saturday afternoon last en route for Valley City to spend the Sabbath. He makes his trip in a little Ford runabout and makes very good time considering the amount of rain that he has had to do with the last month.

Martin Rappley is tending separator for A. L. Orange.

Grain is coming in fast now and the elevators are busy taking care of it.

The local elevators are beginning to receive a lot of grain that is being threshed.

Sever Nelson has invested in a new wagon; also Wm. Howe and W. H. Hecker.

John Davison received some more peaches from Mrs. J. E. Davison's brother in Washington, and we must say that they were beauts.

Edward Reid of Philadelphia, Penn., a brother of Mrs. Thos. Kane of this place is here visiting for a while, he also visited at Courtenay for a while.

Mr. and Mrs. A. Gordon have returned to their home in this city after visiting their son, John, at Fingal, N. D. They spent two weeks there.

Miss Edna Kane will leave for school at Valley City, N. D., next Monday. She attended the same school last year and likes it real well.

You can hear the hum of the threshing machines at any time now that you listen, as they are hard at work threshing out the golden grain.

The Jamestown Capital came out in their last issue with the advertising paper, and it was a good thing for the advancement of the cause. It will undoubtedly bring some new settlers into the county the coming season.

One of Mr. and Mrs. P. E. Brown's little boys burned himself very severely Thursday last. He in some way was detailed to get some kerosene to light a fire in the forge and in some unknown manner got the gasoline can mixed up and spilled some of it on himself. When taken to the forge the supposed kerosene was poured on the fire with the result that the gasoline exploded and his clothing caught fire and he was badly burned and the doctor from Jamestown was called to dress his burns. He at the present time is suffering very much, but is improving at this writing. His many friends and friends of the family all hope for him a speedy recovery. It also may be a good thing to say here that when the family called for the doctor some one on the line, we do not know who it was at all, but not a very manly thing to do, would not keep still so that they could talk to the doctor. If the parties can be found it will go very bad with them, and we think that they will not do it again.

### A FINE PROMOTION.

Walter Norman, Tonahawk, Wis., a graduate of the Mankato Commercial College in 1910, has been promoted to the position of head bookkeeper at a salary of \$100 a month. He says he owes his success to the training received at the Mankato Commercial College and advises any one contemplating a business or shorthand course to go there.

Our free catalogue tells all about it. Send for it. Address Mankato Commercial College, Mankato, Minn.

### Test the Quality

of the vituals we are serving at our lunch counter and resturant you will find not only that the Gravy is Tender

but also the steaks and chops. They are tender and juicy and cooked and served as you like them. Have you tried one of our meals? They are hard to beat

The Midland Hotel

## The Good Merits of a Monitor Drill

Any kind of a drill is better than broadcasting. The Monitor Double Disc is better than any other drill.

### WHY?

BECAUSE—  
It requires less seed—  
It increases the yield—  
It raises the grade—

### HOW?

All the seed is deposited in two rows in each furrow, at even depth, and covered with a uniform amount of earth.

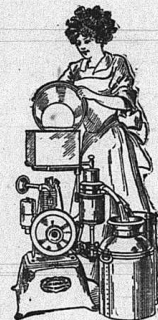

None on top for the birds, none insufficiently covered to start early and be killed by the hot sun—it all grows. Requires a fifth less seed.

By depositing the seed in two rows, in the moist soil, with a uniform covering, it germinates quickly, has a firm root hold, and withstands dry spells. This increases the yield of wheat (other grains in proportion) from three to seven bushels per acre.
