

The artiesan well at Wimble-  
don, which broke loose last fall  
and for which a large sum has  
been expended on trying to stop  
the flow, has been abandoned as  
it is claimed that nothing can be  
done to check it and it will con-  
tinue to fill up the low places  
with water. Wimbledon is with-  
out water, and fire protection is  
badly needed.
