

Miss Tena P. Regner, the retiring county superintendent of schools, was tendered a reception of a public nature last evening, as an expression of the good-will and appreciation in which she is held by the school patrons of the county. Miss Regner expects to leave the state this week, and will go to Michigan, and later on to California. Her decision to leave the county will be received with sincere regret by all who know her, for she has been a most conscientious and faithful worker in the up-building of the Griggs county schools.
