

Referring to the article published in this paper last week, entitled, "Kidnapper Chased Across the State" and taken from the Wolf Point, Mont. Herald, letters have been produced showing that Saby and the girl he is alleged to have kidnapped were engaged long before the so-called kidnapping took place. This correspondence also shows that they both had considered the matter of elopement, thus refuting the allegation that threats had been used by Saby to get the girl to go with him. Attention is also called to the fact that the girl is older than the said article states her to be. It is only fairness to Mr. Saby and his folks that this statement is given publicity.
