

Walum News Notes

While driving about 20 miles an hour near Hope last Sunday night the front wheel of Theo. Rasmussen car came off and the shock of the accident was so slight that the occupants thought it only a blow out. Upon investigation it was found that the bearing cones had worn out which let the wheel off. Luckily it happened near a farm house and the necessary repairs made in a short time. It was certainly a miracle that some serious accident did not happen with one front wheel off and going at that speed.
