

Hosea Writes Again

Union City, Pa. Jan. 1-15

12 Sherman St

Mr. Editor

i thought i would rite a few lines so the Hannaford folks would know that i am alive i landed at Union City Christmas Eve i found my old sisters better than i expected But the two oldest are Feeble

i am having a lovely visit my Favorite Irish girl Catherine is here and i do think she is looking younger she was sick last fall but she is extry well now she thinks my arm is Better than any Electric Belt that ever was made Most every day i see some Sunday School children that ust to come to Sunday school when i was superintendent and they think i am so nice i have shook hands with so maney that my shoulder is lame they all think that i can see as Far ahead as Abe lincon now i think this Nation is on the verry edge of an approaching War and we know that War means that Thousands and hundreds of thousands of our People are going to get killed Now there is something for the Harnaford Folks to do i see By reading the Enterprise that there is a quite a number getting married on account of the Prospects of War i would earnestly advise all these Newly weds to Pitch in and raise large Families so if the older ones are killed in the War there will be a New generation coming up it dont make any difference whether they are Boys or girls of course the Boys can join the army and the girls can join the Salvation army For i do hope as long as i live there will be lots of People in the World i want to always see lots of Republicans and lots of Dimic Rats and lots of Socialists and a Few Bull Mooses.

So hoping this will Find all the Hannaford Folks Well is my Best Wish.

Hosea Woodward

B S i am Disgusted with the last law that Passed through the legislator here in Pennsylvania on account of that Hoof and Mouth Disease that comes among cattle they Framed up a law that a lady and gentleman no matter how Deep they were in love the law Prohibits them from kissing each other the most unreasonable law i ever heard of

i am pleased to read in the Enterprise that some of the Folks that went to Montana is coming Back to Hannaford

Hosea
