Probably my departure grieves,
My home and the friends God

me gave,

And many falling tears shall drop upon my grave.

But I am not afraid

And safe in his arms, I know

He'll keep me safe, while I watch and wait,

For my friends down there below.

The membership in the North Dakota department of the American Legion is estimated at approximately 12,000. This represents 12,000 votes to be cast in this year's election which were not cast two years ago. To what political faction this strength will be given may be a matter of conjecture but owing to the fact that the state administration of North Dakota has greatly favored the Legion's rival, the World War Veterans, it is far from improbable that the majority of the American Legion members will vote with the opposition. Those 12,000 North Dakota lads proved a formidable foe to the Prussian autocracy and will be a mighty force to be reckoned with in the election this year.
