

Last week we mentioned the resignation of Supt. Chapman. The Board of Education have been fortunate in securing the services of Prof. and Mrs. H. V. Ward for the balance of the school year. Mrs. Ward is a graduate of the University of Minnesota, and has taught English, Domestic Science and Mathematics in North Dakota High Schools for about eight years. Mr. Ward was educated at the Industrial School at Ellendale, and at our State Agricultural College in Fargo. His specialty is Manual Training and Mechanical Arts, but he has had a wide experience with all High School subjects and is well prepared for his position. Miss Pauser has recovered from the flu and is back at work, but Miss Tolstad is still confined in the hospital and is reported to be very sick.
