

Bennie Wilson Writes from Camp

The following is an extract from a letter from Bennie Wilson to his parents, Mr. and Mrs. Ole H. Wilson. Bennie left Griggs county with the contingent which left here for Camp Lewis on May 25th.

Camp Lewis, Wash., June 2

To-day it is Sunday, and is a great day in camp. We got here last Tuesday noon and it certainly was an interesting trip. I feel fairly good now, but was sick one day after vaccinating. I do not think that we will stay here more than three or four weeks as the camps are now filled. They only train us here a little while then send us to some other camps to make room for new men. I have had three days training and like it good so far. I get a little home-sick once in a while, but it does not help any so I might just as well get over it.

I got my uniform the second day, so you would not know me now if you should see me. Oscar Souju was rejected so he is on his way home. When you see him tell him hello, he can tell you just how things go, going through examination. Alfred Magnuson is in the same company as I am, so I see him every day.

Bennie A. Wilson.
