<sup>1</sup> According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places urban under special rule are classified as urban places. There were no places urban under special rule in Michigan.

<sup>2</sup> Includes 345,187 persons in urban territory outside of urban places.

<sup>3</sup> Population refers to Michigan Territory as constituted at time census was taken. Boundaries changed in 1816, 1818, 1834, and 1836.

URBANIZED AREA MAPS

The eight urbanized areas having their central cities in Michigan, for which statistics are shown in table 9, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized areas. To assist in locating the exact external bound-

aries of the areas, each boundary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map and the features to which they apply are presented in the following key.

URBANIZED AREA MAPS

The four urbanized areas in Missouri, for which statistics are shown in table 9, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized areas. To assist in locating the exact external boundaries of the areas, each bound-

ary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map, and the features to which they apply are presented in the following key.

<sup>1</sup> According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places urban under special rule are classified as urban places. In Montana there were no places urban under special rule.

<sup>1</sup> According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places urban under special rule are classified as urban places. In Nebraska there were no places urban under special rule.

<sup>2</sup> Parts of Otoe and Sarpy Counties acquired by Iowa and part of Iowa acquired by Burt County in 1943.

<sup>3</sup> Includes 12,658 persons in urban territory outside of urban places.

<sup>4</sup> Exclusive of population of areas taken to form parts of Colorado and Dakota Territories in 1861, but inclusive of population of area taken to form part of Idaho Territory in 1863.
