w TWO CASES INFANTILE 8] PARALYSIS IN COUNTY e d. Two cases of infantile paralysis have developed in Griggs county d . during the past two weeks. One of b the two cases resulted in the death g of Charles Rice, the four-year-old -W son of a family living on one of r t the Huso farms in Lenora town-٠. ¥ 1-1 ship. The child died last Friday. 0 The second case is that being sufd fered by Evelyn Houghton, eightr. ŧ year old daughter of Mr. and Mrs. ls a Walter Houghton. While the little 1. a girl is very seriously ill, her recovia ery is expected. st y Health authorities of the county le. 1 have taken every precaution to head 38 i off the possible spread of the disease. 0, a There are said to be cases of it in ie Nelson county in the Aneta neigh-Эľ borhood, and considerable of the ьd 1 disease in Minot. ci It is believed that a serious spread (of the disease will perhaps be avoid-1 ned because of the lateness of the S. season. Had the trouble shown up be early in August the consequences ip (might have been far more serious r's than they are now at this late day. be -Sentinel-Couriert st n
