y

pent Sunday at his home. escapes choson and H. L. Japoesn't Fid Selebson and ra Liver-dispositimilies came up from Dazey Saturday to visit between trains at

the Geo. J. Jacobson home. The Southern Belies, a trio of ac-

complished young ladies, are giving an entertainment in the Walum Hall Thursday, Jan. 6th. Readings, im-personations and musical numbers compose the program. Pance after Dance after the show,

Mrs. Chas. H. Peterson left Friday for Fargo for a few days' visit with friends there,

Chester Wallum drove to Dassy Thursday for a short visit with

friends there. Hen Losing Grip on Eight-Hour Day

A neat trick is now being played on the hen in many parts of Minne Poultrymen here and there sota. have entered the highly specialized class, in that they are stimulating egg production, when eggs are worth the most, by illuminating poultry

working day of the flock. Possibly the hen might call it a mean trick, if her viewpoint could be determined; but as she is given more time in which to eat and exercise-diversions in which she delights-no particular sympthey is being wasted up-

houses and thus lengthening the

on her. N. E. Chapman, poultryman with the agricultural extension division at the Minnesota University Farm, says that a poultry keeper at Barnum received an average of 11 eggs in a given 30-day period from a flock of 375 pullets. He put in electric lights turning them on from 6 a. m. until

daylight and from sundown until 9

p. m., and in the next thirty days

reaped a harvest of 18 eggs to the

bird. With eggs at 80 cents a dozen

this poultryman certainly had something to show for his enterprise. Mr. Chapman is using artificial light with excellent results in his poultry houses near University Farm He doubts whether the average year-Iv production will be

materially stimulated, but has satisfied himself that a lighting system makes for more eggs in the winter time when prices are highest. The longer work-ing day means more eggs at the right time.
