According to the Syracuse N. Y., Herald, a pine floor laid in a gold worker's shop in ten years becomes worth \$150 per foot. A Syracuse jeweler once bought for less than \$50 some sweepings that gave \$308 worth of gold. A tub in his cellar, into which is blown the dust from a polishing lathe, accumulates \$50 a year. A workingman in his shop carried off on the tips of his moistened finger \$30 of fillings in a few weeks. Workmen sometimes oil their hair and run their fingers through it, leaving a deposit of gold particles, which they afterwards wash out.

The other is a mortuary chapel which will be of stone, hand-somely fitted up inside. This little incident is given by the writer to show that some travelers have not sense enough to diagnose a family party when they see one: A traveler saw a woman take a man by the collar, yank him up the steps into a railway car, jam him down into the hot seat next the stove, pile up a valise and two brown baskets with loose covers and long handles at his feet, shove a baby into his lap and say: "Now, sit there until I help Mary Jane on the car, and don't you move until I come back." When the woman reached the car door the traveler said to her, "Is that man your husband?"
"Now-w-w!" roared the woman; "he's
my daughter's husband, and she hasn't spirit enough to say her soul is her own!"

Thomas Jefferson's Prophecies. What is believed to be the last letter ever written by Thomas Jefferson-to Mayor Weightman, of Washington, declining, because of sickness, an invita-tion to attend the Fourth of July exercises in that city in 1826—has just been found in an old family Bible in Baltinore. Referring to the event about to

be commemorated, it runs as follows:
"May it be to the world what I benieve it will be (to some parts sooner to others later, but finally to all), the signal of arousing men to burst the chains un-der which monkish ignorance and superstition had persuaded them to bind themselves, and to assume the blessings and security of self-government. The form which we have substituted re-stores the free right to the unbounded exercise of reason and freedom of opinion. All eyes are opened or opening to the rights of man. The general spread of the lights of science has already laid open to every view the palatable truth that the mass of mankind has not been born with saddles on their backs, nor a favored few booted and spurred ready to ride them legitimately, by the grace of God. These are grounds of hope for others-for ourselves let the annual return of this day forever refresh our recollections of their rights and an undi-minished devotion to them."

FROM THE OLD WORLD.

From the great London (Eng.) Times. Among the many specifics introduced to the pub-dic for the cure of dyspepsia, indigestion, derangements of various kinds, and as a general family medicine, none have met with such genuine ap-preciation as Hop Bitters. Introduced to this country but a comparatively short time since, to meet the great demand for a pure, safe and perfec family medicine, they have rapidly increased in favor, until they are, without question, the most popular and valuable medicine known. Its world-wide renown is not due to the advertising it has received; it is famous by reason of its inheren It does all that is claimed for it. charges its curative powers without any of the evi effects of other bitters or medicine, being perfectly safe and harmless for the most frail woman. safe and harmless for the most frail woman, smallest child, and weakest invalid to use. Few are the homes indeed where the great discovery has not already been hailed as a deliverer and welcomed as a friend. It does what others affect to do. Composed of simple materials, it is a marvel of delicare and successful combination. Nothing is wanting. Every ingredient goes straight to the mark at which it is aimed, and never fails. Pleasant to the palate, agreeable to the stomach, and thoroughly effective as a cure, it has won for itself the confidence of all.—Times. London, Eng.

Sir:—Having suffered from extreme nervous debility for four years, and having tried all kinds of medicine and change of scene and air without deriving any benefit whatever, I was persuaded by a friend to try Hop Bitters, and the effect, I am happy to say, was most marvelous. Under these circumstances I feel it my duty to give this testimonial for the benefit of others, as I may say I am now entirely well; therefore I can justly and with confidence give personal testimony to any one wishing to call upon me.

RATZENBACHHOF, Germany, Aug. 28, 1881. Hop Bitters Co.

Dear Sirs:—I have taken your most precious essence, Hop Bitters—and I can already, after so short a time, assure you that I feel much better than I have felt for months.

I have had, during the course of four years, three times an inflammation of the kidneys. The last, in January, 1880, was the worst; and I took a lot of medicine to cure the same, in consequence of which my stomach got terribly weakened. I suffered from enormous pains, had to bear great torments whet taking nourishment, had sleepless nights, but none of the medicine was of the least use to me. Now, in consequence of taking Hop Bitters, these pains and inconveniences have entirely left me, I have a good night's rest, and am sufficiently strengthened for work, while I always had to lay down during the lay, and this almost every hour. I shall think it my duty to recommend the bitters to all who suffer, for I am sure I cannot thank the Lord enough that I came across your preparation, and I hope He will maintain you a long time to come for the welfare of suffering mankind.

Yours very truly,

PAULINE HAUSSLER, Gebr. Rosler.

Gentlemen:—Though not in the habit of praising patent medicines, which for the most part are not only useless but injurious. I have constantly used Hop Bitters for the past four years in cases of indigestion, debility, feebleness of constitution, and in all diseases caused by poor or bed ventilation, want of air and exercise, overwork and want of appetite, with the most perfect success.

I am the first who introduced your Hop Bitters in Portugal and Spain, where they are now used very extensively. Yours very truly.

Breaking a Corner.

In the early days of Michigan, when one dealer was the source of supply for a large territory, a capitalist from the East suddenly bought up all the tobacco and whisky to be got hold of in the state. There was no railroad communication: it was winter, and there was no navigation, and everything promised a big profit on the speculation. Prices began to creep up and settlers to inquire and protest, and the capitalist was rubbing his hands and holding on, when something happened. He was on his way to church one Sunday when he was seized by a band of tough-looking pioneers and carried to the river, where a hole already had been cut in the ice.
"What is the meaning of this?" he

finally asked.
"It means old prices fur whisky and terbacker!" replied the spokes-

man. "How?" They proceeded to enlighten him. Two of the band gave him a duck into the water, and he was plunged in and hauled out three times before he got his breath and said:

"Gentleman, tobacco hastaken a great

drop!"
"Give him some more!" said the leader, and into the freezing cold water he went again. When they hauled him out blue with cold, and teeth chattering, he

observed:

"And whisky is ten cents a gallon less than the old price!"—[Wall Street News.

There was not a cloud in the sky, the sea was tranquil, and the sun, which was getting low toward the west, shone directly in the eyes of any one looking ahead.
