Lovick Streetman, E. H. Green, Bold Emery and Stancy Landerman are the others. Jasper larbough was the leader of the gang. The charge against them was that they committed outrages them was that they committee outrages against negroes because negroes voted for Hon. Emory Speer for congress. Speer was defeated and appointed United States district attorney, so it fell to his lot to prosecute the ku klux. The charge of Judge McCoy was so liberal for the defense that acquittal was considered certain. When the verdict was rendered, convicting

Ill., Nov. I, 12 m.—General Orders No. 17: I bereby relinquish command of the division of the Missouri in order to assume the new duties assigned me by the president in general orders No. 71, dated Headquarters Army, Oct. 13, 1853. In parting with the officers and soldiers whom I have head the honor to command for the past fourteen years, I desire to express my thanks for the confidence and support given by them to my administration of this division. When I assumed command of it, hostile Indians covered the country west of the Missouri from the General the construction of railroads across the country had only just begun. Since then the Indians have been so far subdued that in the territory formerly cocupied by them. Citics, towns and cattle interests have grown up and railroads have been built. In these great changes the troops of the division have been active and important agents during these many years. It has been my especial gratification that I have had no disacreement with my subordinates, and that from the department commander to the private soldier, faithful acrives have been rendered to the government. With the assurance that I shall always remember the hardships suffered, the battles fought, the results achieved and the gallant comrades who have lost their lives in savage warfare, I resign a command that has been to me a pleasure as well as a duty.
