PUBLISHED FVERY FRIDAY MORNING By FRED'K H. ADAMS.

An illustration of the English method of making statesmen is found in the career of Lord Dufferin, recently appointed viceroy of India. Dufferin has spent about a quarter of a century in the foreign service, and has been sent upon diplomatic missions to nearly every nation in the world. The politics of the party in power made no difference to him. Whatever his personal views might be, he simply sought to do the best he could for his country. Such has been his uniform success that he is spoken of by his countrymen (that is, Britains, for he is an Irishman, not an Englishman as is generally supposed) as "our only embassador." The differ-States is that here every citizen has ar opportunity to qualify himself for any that he will sometime be called upon to fill one, while there the man must be especially trained, and upon only a few are these honors conferred.

THE PRESIDENCY UNCERTAIN.

Result of the Presidential Election Involved in Uncertainty.

Cleveland Thought to Have Carried New York, but it is Unsettled.

The following dispatches are the latest received in regard to the election up to the hour of going to press with this side of our paper.

From the Daily Pioneer Press.

At 2 a. m. the returns are not sufficient to warrant positive claims on either side. In the states not in doubt Blaine has secured a total of 179 electoral votes, and Cleveland 141. Six states are more or less in doubt, New York, New Jersey, Connecticut, viz.: Indiana, Nevada and Virginia. Of these, the Democrats claim New Jersey, Connecticut and Indiana, and the chances are probably rather in their favor. In Indiana, however, there have been noticeable ence between Britain and the United Republican gains; but the returns are too meagre to admit of anything like a careful estimate. In Connecticut the Republic position, the probability being publicans claim and the New York Sun concedes about 2,500 and the Democrats 3,500 majority. Virginia is claimed by Gov. Cameron and others to have certainly gone Republican. The state press, however, assert that Cleveland will have from 3,000 to 7,000 majority. In any event, the Republicans have made large gains. New York seems to be very close, with the chances against the Republicans. Connecticut close, with the chances in our favor. From New Jersey and Indiana the returns are still too scattering to warrant any decided opinion. But we have faith yet that the Republicans will pull through. The Republicans can lose New York. Connecticut and New Jersey and still elect their ticket by the aid of any one Southern State. They have good hopes of more than one."

New York will give the small plurality for Cleveland indicated in my first dispatch. about 10,000. The early returns indicated a large plurality, but the later reports helped the Blaine pluralities. The morning returns swell the pluralitis; 1,227 districts give Blaine, 289,680; Cleveland, 244,915; Butler, 7,778, and St. John, 15,089-a net Democratic gain of 10,299. These, with New York and Brooklyn, make up more than three-fourths of the state. The carefully prepared and trustworthy tables of majorities made up in the Times have just been revised, and they show Cleveland majorities of 71,713, against Blaine majorities of 61,716, leaving a plurality of 9,997 for Cleveland, or barely two-thirds of the St. John vote, which is double that cast for Butler. The Tribune's own tables give Cleveland a plurality of over 12.000.

WHITELAW REID'S REPORT.

NEW YORK, Special Telegram, Nov. 5 .-At 3:30 o'clock this morning the returns show that New York is extremely close, with a probable Republican plurality of from 3,000 to 5,000. The Democrats are still claiming the state by a majority of 10,000 or more. No returns, however, warrant the WHITELAW REID. claim.

DEMOCRATIC CLAIMS. NEW YORK, Special Telegram, Nov. 5, 3:30 a.m.-The World claims this state by at least 10,000 plurality, and claims that Cleveland has 222 electoral votes. It places New Jersey, Indiana, Connecticut and Wisconsin as Democratic. The World says Michigan, Nevada and California are doubtful, with the chances in favor of the Democrats. NEW YORE, Nov. 4.-Corrected returns show that Cleveland's majority in the city is 53,083. Cleveland's majority in New York, Kings, Queens and Richmond counties reaches almost, if not quite, 24,000. In 1883 Garfield came to New York county with 63.000. It is unlikely, so far as heard from in the interior of the state, that Blaine's vote in the interior can offset the majority above given.

HOPE NOT RELINQUISHED.

The Albany Evening Journal claims that if the figures from New York city are correct, Blaine will carry the state. Mr. Somerville, of the Western Union, still claims the state by from 10,000 to 15,000. The state is at best exceedingly close, but the Republican leaders here still adhere to the belief that Mr. Blaine has carried the state and country. CHICAGO, Special Telegram, Nov. 5.-Whitelaw Reid telegraphs as follows: "I now believe we have carried New York by a majority not far from 5,000. Returns from remote precincts are gradually bringing us up. I believe'that we also have Connecticut and New Jersey."

NEW YORK, Nov. 4.-Senator Jonas, of the Democratic national committee, says there is no doubt that New York State has given Cleveland from 35,000 to 50,000 mafority, New Jersey 5,000 and Connec-ticut 3,500. Meager returns from Indiana show material Democratic gains over 1880, and Senator Jonas is confident of a Democratic majority in that state and California. He also hopes for Nevada. The Republican national committee privately conceded New York state to Cleveland by 60,000 majority. This was based on returns from cities. During the next hour, returns from less populous districts made a considerable decrease in that estimate.

THE PRESS AT SEA.

NEW YORK, Special Telegram, Nov. 5, 3:50 a. m. — The press of this city seems pretty well at sea on the result. The Morning Journal says in its headlines: "Looks like Blaine," but its returns are meager. The Tribune says in its first edition:

"Blaine apparently has 157 electoral vote sertain and Cleveland 135. Eleven states, casting 109 electoral votes, are in doubt, or have not been heard from. New York is one of the majority for the Blaine and Logan electors will be much larger than was anticipated by even the most sanguine. Returns have been secured from nearly two hundred of 1,400 precincts, or about one-third of the state. These show a total vote of 25,746 for the Republican electors, and 15,230 for Cleveland, a majority of 10,516, being a net Republican gain over the vote of 1883 of 4,530. These returns have been received principally from the Republican precincts, but at the same ratio of increase the majority in the state may safely be placed at from 35,000 to 40,000 for the national ticket. THE CONGRESSIONAL DISTRICTS.

In the congressisnal districts the result is no less satisfactory, every Republican mem-ber being elected by increased majorities, in most cases exceeding even their own hopes in the emphasis of their victories. In the First district from the thirty-one precincts heard from Mr. White has a majority of 749. This is but about one-quarter of the number of polling places in the district, and with the comparative ratio of majority, and the increase, Mr. White's majority might be placed at 3,000; but the returns from the Democratic strongholds, in Winona and the larger towns, will reduce the figures to the vicinity of 2,000. In the Second district, Mr. Wakefield's majority bids fair to reach 7,000, with the ratio of gains, that gentleman having double the number of votes of

his competitor in the precincts reported. In the Third district Maj. Strait is ahead of the national ticket, and in the twentyfour towns reported has a majority of 1,645, being a gain of nearly one thousand This is about one-quarter of the district, and with a like gain in the balance of the district he will bury Donnelly under a majority of at least 6,000. The returns in the Fourth district give Mr. Gilfillan a majority of 2,042, which, with the same ratio of gain, and allowing for the disaffection in Minneapolis, will result in a majority of at least 2.000.

In the Fifth district Mr. Nelson will have, as indicated by the returns, a majority rang-ing in the neighborhood of 7,000 to 8,000.

WISCONSIN.

HAS CLEVELAND THE STATE? MILWAUKEE, Nov. 5 .- At 1 o'clock this morning but 210 of 1,200 towns and precincts in the state have reported. They show a Democratic gain of 6,900 over 1880 on the presidential vote, and if a like rate of increase is had in the remaining precincts it will give the state to Cleveland. The Republican state ticket is unquestionably elected. The indications are that Caswell, Republican, in the First congressional district, Bragg, Democrat, in the Second, Lafollette, Republican, in the Third, Rankin, Democrat, in the Fifth, Price, Republican, in the Eighth, and Stephenson, Republican in the Ninth, with Fourth, Sixth and Seventh districts in doubt. Things

CHICAGO, Nov. 5, 2:40 a. m. -Returns from the city and state are coming in slowly and very much scattered. Nothing further in the way of estimates can be heard from the congressional districts. Oglesby and Har-rison are running very close for rison are running very close for governor and it will probably take the com-plete returns from Cook county to determine the result. Two hundred and forty-four precincts heard from show a net Democratic gain of 6.155. If this ratio should hold out would give the state to the Democrats by quite a decided majority.

Missouri.

ST. LOUIS, Nov. 4.-Returns from the interior of Missouri are very meager and widely scattered. Two hundred and twenty-five towns and precincts give Cleveland 27,167 and Blaine 25,458. All returns from the state show that Marmaduke, for governor, runs behind Cleveland, and that Ford runs a little chend of Plaine little ahead of Blaine.

Colorado.

DENVER, Colo., Nov. 4.-Prominent Democrats, relying upon private advices, admit that the next legislature is unquestionably Republican. The congressmen are still in doubt. The Republican state ticket is elect-ed beyond reasonable doubt, with the prob-able exception of lieutenant governor. Blaine's majority will reach 300, a slight gain over the vote of Garfield in 1880.

DES MOINES, Iowa, Nov. 4 .- One hundred and forty-four precincts give Blaine 22,341 Fusion, 16,174, St. John 249, Butler 1,206;

STILL CLAIMED FOR BLAINE. NEW YORK, Special Telegram, Nov. 6 .-The Republican state committee, at midnight, still claim this state by from 5,000 to 6,000 for Blaine. Their estimates are based upon the Democratic claims

The operations for the last year of this period, say from October 1, 1883, to September 30, 1884, were as follows: Exchanges \$34,092,027,338. Balances citement. (money) 1,524,930,994 But for this organization over \$34,000,000,000 in money would have been handled in the past year. Through the Clearing House system, this amount was reduced to \$1,524,000,000. In this range of business covered by the banks, the amount of money required to transact the same was only 41 per cent. of the total. This is above the average smount of money used by the New York banks in the ordinary daily business, as ascertained by the Comptroller of the Currency, who recently made the subject a special duty.

CLEVELAND GETS THE STATE. NEW YORK, Speecial Telegram, Nov. 4. There is no longer any reasonable doubt that

states in doubt. The early returns indicate a large total vote and large Democratic gains in some parts of the state. In New York city the Democratic plurality is over 42,000, and in Kings over 15,000. The Republicans gain in Albany, Chemung and Monroe counties. The delegation in congress seems to be evenly divided, each party having scventeen members The assembly is Republican by about twentyeight majority.

The Times savs:

The returns indicate that Grover Cleveland been elected president of the United States. If it shall appear that New Jersey has given him the majority that scattering returns now seem to show, and which the Democratic committees positively claim. The State of New York give Cleveland from 12,000 to 16,000 plurality. Cleveland's plurality in Connecticut will about 2,000. There is no indication that he has lost any of the 153 votes in the South hitherto assigned to him. There is no conclusive news from Indiana. If we add to those 153 votes from the south, the 36 votes of New York, the 9 votes of New Jersey and the 6 votes of Convotes of Acw servey and the of the of the majority necticut, the total is 204. A majority of the entire number of electoral votes is 201. The returns from New of Jersey are very incomplete, but every indications points to the success of the Democratic presidential ticket in that state. The Republicans claim Essex county by only 1,800 majority, which indicates a Democratic gain of 1,700."

The majority for Cleveland in this city, which is 42,000 in round numbers, shows that the independent vote was not as large as was expected, or that it was offset by Democratic treachery or defection. The large majority of 15,000 Kings shows that county is well entitled to the name given it of "the stronghold of the In-dependents." The fears that have been entertained of a break in the solid South through the corrupt use of money by the Republicans, have not been justified by the result, since that section, as usual, will cast its entire electoral vote for the Democratic candidate.

The Tribune, in its second edition, says editorially:

We believe that Blaine and Logan are elected. The states regarded as safe for the Republican ticket when our first edition went to press gave it 157 electoral votes. There seems still no reason to doubt in the case of any one of the states thus enumerated. We can now safely add New York and Wisconsin, and thus bring the electoral votes secured for the Republican candidates up to 204, or three more than are necessary for elec-It is reasonably certain that 14 more tion will be added from the Pscific slope, while from Indiana, New Jersey and the South, there is, and at the hour of writing, 3 o'clock a. m., reason to hope for more yet. All hall the Republicans!

MINNE OTA.

The result of the election in Minnesota yesterday is a source of gratification to every Benuhlican. and the indications are that the

will be at least 180,000, against 164,226 in 1880. Owing to the great length of the dicket the votes of San Francisco will not be all counted before Thursday. Re-turns from the interior are coming in very slowly. Up to 10:45 p. m. only thirty-one precincts in several different counties were heard from, giving Blaine 1,334 and Cleve-land 1,136; net gain of 198 for Republi-cans. The above ratio of gain will hardly be maintained to-night, as the supposition is from returns already received and other in-dications that Blaine will run ahead about 6,000 in the interior. The very Democrats have probably carried this city by 2,500, which would make Blaine's majority about 3,500. The vote cast for congressmen in-3,500. The vote cast for congressmen indicates that the Republicans might get four out of six. The Chronicle says figures received show there can says figures received show California hardly be any question about California being safe far Blaine. The state was redisbeing safe far Blaine. The state was redis-tributed in a manner which gives the Republicans a hard pull in congressmen, but from present indications the Republicans will elect their men in the First, Third, elect their men in the First, Third, Fifth and Slxth districts, with the Second. and Fourth doubtful, with chances in favor of the Democrats. The Alta says both parties are confident and claim the state, but the indications favor a belief that it has gone Democratic by from 1.500 to 3,000.

New Jersey. PHILADELPHIA, Special Telegram, Nov. 5, 5:30 a.m.-The result in New Jersey is still in doubt. The result depends entirely upon In doubt. The result depends entirely upon Hudson and Essex counties, from which no reliable returns can be obtained for some hours. Chairman Hobart, of the Republican state committee, concedes 4.000 majority for Cleveland in Hudson county and claims 3,000 for Blaine in Essex county. This would give Blaine the state. The other information places Blaine's majority in information places Blaine's majority in Essex county at 1,800, which would turn the scales in favor of Cleveland. The Democratic state committee claims 2,000 majority for Cleveland, but there figures are no more reliable than the Republicans. The Republicans elect congressmen in the First. no more reliable than the Republicans. The Republicans elect congressmen in the First, Second, Fifth and Sixth districts, and the Democrats in the Third and Seventh. The Fourth is still in doubt, but is probably Democratic also. This leaves the congressional delegation uuchanged.

KANSAS CITY, Mo., Nov. 4.-Returns from Kansas are very slow, but indicate that the Republicans have elected the entire state ticket and presidential electors by about the usual majorities, and that the congressional delegation will be entirely Republican, as follows: First district, Morrill; Second, Dun-ston: Third, Perkins; Fourth, Ryan; Fifth, Anderson; Sixth, Hanback; and Seventh, Peters Peters.

gains, which they believe are not up to the increase of the vote over 1880, in which case they will count for nothing. The only way in which they believe the state can be carried for Cleveland is by fraud. The Tribune at this hour claims that Blaine has carried the state and is therefore elected president. Its belief is founded upon the following figures: Returns from 1,742 election districts outside of New York and Kings counties give Blaine 389,404, Cleveland 332,119. This leaves Blaine's plurality 57,295. In New York and Kings counties the Democratic plurality will not exceed 58,557-leaving Cleveland's plurality 1,282, with 254 election districts to hear from. Those districts in 1880 gave a net Republican plurality of 4,243. The same proportion this year would give Blaine 2,961 plurality in the state. The Tribune now claims the state by 1,000 plurality. "There is nothing," says the Tribune "in the returns from the remainder of the state to indicate a probability of the Democrats overcoming that." The betting to-night has continued heavy in favor of Blaine carrying the state, many bets at the Hoffman house being three to one in his favor.

The latest figures received by Gov. Cleveland give a Democratic majority in the state of 2.766.

THE FIELD REVIEWED.

From the Pioneer Press of Thursday morning. The result of Tuesday's election is stil in considerable doubt. New York is the pivotal state, and on the result there the interest centers. The latest returns received this morning before going to press show that, whichever way it goes, it will be by a remarkably small majority. Chairman
