Soilet or for carriage wear.

Coarse braids are more stylish than any of finer weave for dressy hats, either in black or in color. For home wear we now have tea

gowns, morning gowns, chamber robes, and lounging gowns. Gauze turbans, with an aigret on the side, are a revival of a very old fashion

for evening head-dresses. There is quite a rage for dull jet just It is considered much more

stylish than the glistening variety. Crapeline is a popular fabric and promises to be generally worn for after-

noon occasions instead of India silk. Satins are going out of favor, and therefore are very cheap, but they make lovely underdresses for lace

The coat sleeve is modified. It is made looser above the elbow, and at the inner, not the outer seam at the

Broad bands of white stitching on the black kid gloves are de rigueur with white and black toilets of high seremony.

Bustles of steel hoops are covered with white or scarlet English morocco, cut in scallops and stitched in rows.

The burneuse shawl drapery and the jabot folds are the favorit arrangement for the back of the skirts of summer dresses

Scarlet and poppy red India silks appear among the solar drabs and delicate-tinted blues, greens, and mauves this season.

Pale rose and pearl gray are admir-ably combined in dressed toilets de viste and home frocks of silk and wool mixtures.

When the Parisians wear a catogan loop of hair in the nape of the neck they still dress the top hair and bang the front locks.—New York Mail.

Moses Was a Gentleman.

Some amusing stories are told of the wit and wisdom of London school children. A class of boys in a board school were being examined orally in Scripture. The history of Moses had for some time been a special study, and one of the examiners asked: "What would you say of the general character of Moses?"

"He was meek," said one boy.

"Brave," said another. "Learned," added a third boy.

"Please, sir," piped a pale-faced, neatly-dressed lad, "he was a gentleman.

"A gentleman?" asked the examiner. "How do you make that out?"

The boy promptly replied in the same thin, nervous, voice, "Please, sir. when the daughters of Jethro went to the well to draw water the shepherds came and drove them away: and Moses helped the daughters of Jethro, and said to the shepherds, 'Ladies first, please, gentlemen."-London Christian World.

Oft obscure the road that leads to health, Unmarked by board or sign; Wisdom avails not, powerless is wealth To sooth those aches of thine. But do not despair, with life there's hope, The cloud conceals the sun; With Pierce's Favorite Prescription at hand

With Pierce's Favorite Prescription at hand You life's full course may run.

More truth than poetry in these lines, as thousands of ladies all over the land now blooming with health, testify to the great curative powers of Dr. Pierce's Favorite Prescription, adapted by much research and careful study to the happy relief of all those weaknesses and ailments peculiar to famales. All druggists. emales. All druggists.

A man cannot attempt to find out what is in a woman's heart without a certain disturbance of his own.

The Knights of Labor should not envy the man who has a million to care for. It is a greater hell than poverty, unless the old fellow takes Moxie.

Rarly seed raisers—the hens.—Popular Gardening.

Reduced Mileage Rates.

THE MONON ROUTE (L. N. A. & C. Ry.) have placed on sale in their principal offices, a new form of Mileage Book at the rate of 3 cents per mile which can be used by a firm or a man and his family. Books will be limited one year from date of issuance aild 150 pounds of baggage will be checked on each coupon.

Stories About Birds and Beasts Dogs can count. I knew one that was employed to bring in the cows to be milked. One morning after he had stood at the gate to see them pass through, he found one was missing. and he started back for it. It was not there, but seeing a top rail in the fence broken he suspected that it had gone over the panel, and he found the cow a half mile distant in a neighboring farm. I knew of another that took his master to a distant place on the farm where a horse had broken his leg. I recall another instance which would be remarkable if animals did not reason and think. Almost every day a person who lived in the vicinity of Washington rode into the city, and he always went home almost helplessly drunk. The horse

4

knew when his owner was in that condition, and he would get down on his knees and haunches for him to mount, and would travel away slowly and steadily with his drunken load. If he chanced to be sober he would not assist Drab and mauve are found to be a street white the bigs of the country of the coun him at the hour when he returned home that day. I knew a parrot that would fan the coffee given it, when it was too hot, and another that would say "put me to bed" as soon as the gas was lighted.—Chester (Pa.) News.

The Sweetest Girl in School.

"She's the sweetest girl in school"! enthusiastically exclaimed one young miss to another, as they passed down the street together. "Edith is so kind, and gentle, and unselfish, every one likes her. And she has lovely golden hair and pretty eyes. Isn't it a pity her complexion is so bad; it spoilt her looks. And then she has such dreadful headaches"! The girls slipped along, but it happened Edith's mother had heard what they said. It set her thinking. What could be done for those headaches and the rough, muddy complexion, that was such a trial to her gentle daughter. She recalled what she had read of Dr. Pierce's Golden Medical Discovery, and on the spur of the moment she slipped into a drug store and bought a supply. Edith took it faithfully, with the result that it cleared her disordered blood, relieved her headaches, made her skin soft, fair and rosy, and now she is not only the "sweetest girl in school," but the most beautiful. thusiastically exclaimed one young miss to

It was the lady who thought she was going to swoon who had a faint suspicion.

A Perilous Postponement.

To postpone, when the duty for immediate action is clear, is always unwise. Especially is it so when increasing ill health calls for a resort to medication. Diseases of the kidneys and bladder are often of swift growth—always of fatal tendency if not combatted at the outset. We have all—even those of us who are not remarkably well instructed—heard something of the danger attending Bright's disease, diabetes, and other diseases of the kidneys or bladder. Let no one be foothardy enough to procrastinate if he perceives the renal organs to be inactive. Hostettar's Stomach Bitters are peculiarly adapted to overcome this inaction, to sufficiently stimulate, without exciting, the kidneys and bladder. Infinitely is this diuretic to be preferred to the impure and flery stimulants of commerce, which prove the bane of unwary persons with a tendency to renal troubles. They are likewise incomparable for dyspepsia, debility, fever and ague, and biliousness. ate action is clear, is always unwise. Espe-

HOTEL SURGICAL INS

No. 663 Main Street, BUFFALO, N. Y.

! Not a Hospital, but a pleasant Remedial Home, organized with

A FULL STAFF OF EIGHTEEN PHYSICIANS AND SURGEONS,

And exclusively devoted to the treatment of all Chronic Diseases.

This imposing Establishment was designed and erected to accommodate the large number of invalids who visit Buffalo from every State and Territory, as well as from many foreign lands, that they may avail themselves of the professional services of the Staff of skilled specialists in medicine and surgery that compose the Faculty of this widely-celebrated institution.

NOT ALWAYS NECESSARY TO SEE PATIENTS.

By our original system of diagnosis, we can treat many chronic make the control of the control o

examining our patients. In recognizing diseases without a personal examination of the patient, we claim to possess no miraculous powers. We obtain our knowledge of the patients disease by the practical application, to the practice of medicine, of well-established principles of modern science. And it is to the accuracy with which this system has endowed us that we owe our almost world-wide reputation of skillfully treating lingering or chronic affections. This system of practice, and the marvelous success which has been attnined display certain phenomena, which, being subjected to scientific analysis, furnish arundant through it, demonstrate the fact that diseases display certain phenomena, which, being subjected to scientific analysis, furnish arundant and unmistakable data, to guide the judgment of the skillful practitioner aright in determining the nature of diseased conditions. The most ample resources for treating lingering or chronic diseases, and the greatest skill, are thus placed within the easy reach of every invalid, however distant he or she may reside from the physicians making the treatment of such affections a specialty. Full particulars of our original, scientific system of examining and treating patients at adetance are contained in "The People's Common Sense Medical Advisor." By R. V. Pierce, M. D. 1000 pages and yver 300 colored and other illustrations. Sent, post-paid, for \$1.50. Or write and describe your symptoms, inclosing ten cents in thamps, and a complete treatise, on your particular disease, will be sent you, with our terms for treatment and all particulars.

OUR FIELD OF SUCCESS.

The treatment of Diseases of the Air Passages and Lungs, such as Chronic Nasal Catarrh, Laryngitis, Bronchitis, Asthma, and Consumption, both through correspondence and at our institutions, constitutes an important specialty.

Throat and Lung Diseases, which give much valuable information, vis: (i) A Treatise on Consumption, Laryngitis and Bronchitis; price, post-paid, ten cents. (2) A Treatise on Asthma, or Phthisic, riving new and successful treatment; price, post-paid, two cents.

maisones, and treatment is employed directed to the removal of a disease which does not exist. Our Complete Treatise on Diseases of the Directive Organs will be sent to any address as receipt of ten cents in postage stamps.

ENGINEY

DISEASE.

BRIGHT'S DISEASE, DIABETES, and kindred maladies, have been very largely treated, and cures effected in thousands of cases which had been pronounced beyond hope. These diseases are teadily diagnostics 'd, or determined, by chemical analysis of the urine, without a personal examination of patients, who cam, therefore, generally be successfully treated at their homes. The study and practice of chemical analysis and microscopical examination of the urine in our consideration of cases, with reference to correct diagnosis, in which our institution long ago became famous, has naturally led to a very extensive practice in diseases of the urinary organs. Probably no other institution in the world has been so largely patronized by suffers from this class of maladies as the old and world-famed World's Dispensary and Invalids' Hotel. Our specialists have acquired, through a vest and varied experience, and, hence, have been successful in steely stapping their remedies for the cure of each individual case.

These delicate diseases should be carefully treated

These delicate diseases should be carefully treated by a specialist thoroughly familiar with them, and who is competent to ascertain the exact condition and stage of advancement which the disease has microscopical examination of the urine), for medicines which are curative in one stage or condition are known to do positive injury in others. We have never, therefore, attempted to put up anything for general sale through druggists, recommending to cure these diseases, although possessing very superior remedies, knowing full well from an extensive experience that the only safe and successful course is to carefully determine the disease and its progress in each case by a chemical and microscopical examination of the urine, and then adapt our medicines to the exact stage of the disease and condition of our patient.

To this wise course of action we obtain the stage of the disease and condition of our patient.

WONDERFUL
To this wise course of action we attribute the marvelous success attained by our specialists in that important and extensive Department of our institutions devoted exclusively to the treatment of diseases of the kidneys and bladder. The treatment of diseases of the urinary organs having constituted a leading branch of our practice at the Invalide' Hotel and Surgical Institute, and, being in constant receipt of numerous inquiries for a complete work on the nature and curability of these maladies, written in a style to be easily understood, we have published a large Illustrated Treatise on these diseases, which will be sent to any address on receipt of ten cents in postage stamps.

BLADDER

BLADDER

BLADDER

DER, STONE IN THE BLADDER, STONE IN THE BLADDER, STONE IN THE BLADDER, Carel, Enlarged Prostate Gland, Retention of Urine, and kindred affections, may be included among those in the cure of which our specialists have achieved extraordinary success. These are fully treated of in our illustrated pamphlet on Urinary Diseases. Sent by mail for ten cents in stamps.

STRICTURES AND URINARY FISTRICTURES AND URINARY FISTRICTURES AND URINARY FISTRICTURES AND URINARY FISTRICTURES AND URINARY FISTRICTURE,—Hundreds of cases of the worst form of strictures, many of them greatly aggravated by the careless use of instruments in the hands of inexperienced physicians and surgeons, causing false passages, urinary fisture, and other complications, annually consult us for relief and cure. That no case of this class is too difficult for the skill of our specialists is proved by cures reported in our filustrated treaties on these maladies, to which we refer with pride. To intrust this class of cases to physicians of small experience is a dangerous proceeding. Many a man has been ruined for life by a doing, while thousands annual / lose their lives through unskillful treatment. Send particulars of your case and ten cents in stamps for a large, illustrated treaties containing many testimonials.

Epileptic Convulsions.

MERYOUS

Epileptic Convulsions, or Fits, Paralysis, or Palsy, Locomotor Ataxis, st. Vitus's Bance, Insommia, or inability to sleep, and threatened insanity, Nervous behility, arising from overstudy, excesses, and other causes, and every variety of nervous affection, are treated by our specialist for these diseases with unusual success. See numerous cases reported in our different illustrated

pamphlets on nervous diseases, any one of which will be sent for ten cents in postage stamps, when request for them is accompanied with a statement of a case for consultation, so that we may know which one of our Treatises to send.

We have a special Department, thoroughly organized, and devoted acclustely to the treatment of Diseases of Women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate home physicians) has the benefit of a full Council, of skilled specialists. Rooms for ladies in the Invalids' Hotel are very private. Send ten cents in stamps for our large Complete Treatise on Diseases of Women, illustrated with numerous wood-cuts and colored plates (160 pages).

RADICAL CURE.

THERNIA (Breach), or BUPTURE, no matter of how long standing, or of what size, is promptly and permanently cured by our specialists, without the knife and without dependence upon trusses. Abundant references. Send ten cents for Illustrated Treating

PILES, FISTULÆ, and other diseases affecting the lower bowels, are treated with wonderful success. The worst cases of pile tumors are permanently cured in fifteen to twenty days. Send ten cents for Illustrated Treatise.

Organic weakness, nervous debility, premature decline of the manly powers, involuntary vital losses, impaired memory, mental anxiety, absence of will-power, melancholy, weak back, and kindred affections, are speedily, thoroughly and permanently cured.

To those acquainted with our institutions, it is hardly necessary to say that the Invalids' Hotel and Surgical Institute, with the branch establishment located at No. 3 New Oxford Street, London, England, have, for many years, enjoyed the distinction of being the most largely patronized and widely celebrated institutions in the world for the treatment and cure of those affections which arise from youthful indiscretions and pernicious, solitary practices.

We, many years ago, established a special Department for the treatment of these diseases, under the management of some of the most skillful physicians and surgeons on our Staff, in order that all who apply to us might receive all the advantages of a full. Council of the most experienced specialists.

We offer no apology for devoting so much-

WE OFFER No APOLOSY.

We offer no spology for devoting so much stention to this neglected class of diseases, believing no condition of humanity is too wretched to merit the sympathy and best services of the noble profession to which we belong. Many who suffer from these terrible on doing good and alleviating suffering, should shun such cases, we cannot imagine. Why any one should consider it otherwise than most honorable to cure the worst cases of these diseases, we cannot understand; and yet of all the other maladies which affilict mankind there is probably none about which physicians in general practice know so little.

We shall, therefore, continue, as heretofore, to treat with our best consideration, sympathy, and skill, all applicants who are suffering from any of these delicate diseases.

GURED AT HOME, at a distance just as well as if they were here in person.

in person.
Our Complete and Illustrated Treatise (168 pages) on these subjects is sent to any address on receipt of ten cents in stamps.

GURGICAL

PRACTICE

Hundreds of the most difficult operations known to modern surgery are annually performed in the most skillful manner, by our Burgeon-specialists. Large Stones are safely removed from the Biadder, by crushing, washing and pumping them out, thus avoiding the great danger of cutting. Our specialists, remove cataract from the eye, thereby curing blindness. They also straighten cross-eyes and insert artificial ones when needed. Many Ovarian and also Fibroid Tumors of the Uterus are arrested in growth and cured by electrolysis, coupled with other means of our invention, whereby the great danger of cutting operations in these cases is avoided.

Repecially has the success of our improved operations for Varicoccle, Hydrocele, Fistulee, Ruptured Cervix Uteri, and for Ruptured Perincum, been alike gratifying both to ourselves and our patients. Not less so have been the results of numerous operations for Stricture of the Cervical Canal, a condition in the female generally resulting in Barrenness, or Sterility, and the cure of which, by a safe and painless operation, removes this commonest of impediments to the bearing of offspring.

A Complete Treatise on any one of the above maladies will be sent on receipt of ten cents in stamps.
