Food Amiteration

Some writers seem to feel that it is adulteration, conveying the idea in their discussions that the foreign substances used are in no way injurious to health. A physician who has studied "the small economies of life" tells how the jellies which some bakers put into their tarts and jelly cakes are made. No wonder grocers can sell them so cheaply. The the time as a "wonderful discovery' directions are as follows: Take four and a "sublime vision." quarts of water and a half pound of alum; boil two minutes; add 32 pounds of white sugar; boil five minutes longer; strain while it is warm (and the hotter it is the easier) through a coarse towel;" when nearly cold, add two ounces of acetic acid, and one-half a pound of real currant jelly. When cool pack it in tumblers and label with a picture of a currant bush and a child picking currants. If you desire a vanilla jelly, add in place of the currant jam four 25cent bottles of the extract of vanilla, and stir in when nearly cold. If you desire strawberry jam, prepare the alum and sugar as before, and add half a pint of the essence of strawberry; or, if lemon is desired; add essence of lemon. You can make what you like with these proportions of alum and sugar. This is the way to make the grocers jelly and the jam that is placed on tarts in the confectioneries and the bakeries.

Horrors of Solitary Confinement.

Passanante, the Neapolitan cook who attempted to assasinate King Humbert and dangerously wounded Prime Minister Cairoli some five or six years ago, is now lying at the point of death. Condemned to imprisonment for life he was incarcerated in a large circular cell in the Portoferraio convict prison on the Island of Elba. The walls, of the dungeon are perfectly white, with nothing on which to rest the eye, daylight being admitted through a small skylight in the domed ceiling. Condemned to solitary confinement, with no books or work to help him pass away the long, dreary hours, the man soon became a hopeless imbecile. His appearance is horrible. Want of exercise has produced obesity almost resembling elephantiasis, and the rolling eyes, the shaven head and face, and yellow, greazy-looking skin conduce to make him utterly repulsive to the sight.

Mr. Charles Schreiner, Foreman of a large Meat House in Baltimore, Md., says:----'He had a sprained wrist for several weeks and began to think it was never going to get well, he was advised to try Salvation Oil, did so and it worked like magic and a few applications entirely cured him.

Alexandra's Kindness of Heart,

Of the Princess of Wales, who, if she lives, will some day be Queen and Empress of Britannia's domains, a charming story is just added to the many humane acts for which she is noted. A little while ago she visited the Millbank female prison, and was shown over the place by the chaplain. In one of the cells was a woman who was so violent that it had been found necessary to handcuff her. Her Royal Highness spoke kindly and tenderly to the woman remonstrated with her as to her con-duct and completely broke down her sullenness. The refactory woman burst into tears, and on the Princess asking her to promise that if the handcuff

world till the Christian era, in which Adam was given 128 feet 91 inches. useless to agitate the subject of food But after the first pair, the human race, in his imagination, suffered a regular decrease, so that Noah was only 100 feet high, while Abraham shrank down to 28 feet, Moses to 13 feet, the mighty Hercules to 10 feet 81 inches and Alexander the Great to a bare 61 feet. The communication, it is said, was received with enthusiasm, and was regarded at

Humbug. . . Barnum said "The American People like to be humbugged." This may be true in the line of entertainment, but not where life is at stake. A man with consumption, or any lingering disease, looking Death in or any lingering disease, looking Death in the face and seeking to evade his awful grasp, does not like to be trifled with. So with confidence we place before our readers Nature's great remedy, Dr. Pierce's Golden Medical Discovery, a sure reliet for that long train of diseases resulting from impure blood, such as Consumption, Chronic, Nassal, Catarrh, Liver Complaint, Kidney Disorder, Dyspopeia, Sick Headache, Scrofula and General Debility. Time-tried and thoroughly tested, it stands without an equal! Any druggist.

A new play has been written entitled "Love in the Ninteenth Century." It is a farce.

R. W. TANSILL & CO., CHICAGO:

Although I was paying \$30.00 per 1,000 for my leading 5c brand, my sales are more than twenty-five times as large since I put in your "Tansill's Punch" 5c cigar. I could not have believed it.

WM. M. DALE, Druggist, Chicago.

People who are slways in high spirits soon wear out, says a physician. It may be, but people who are always low-spirited wear other people out.

She scolds and frets, She's full of pets She's rarely kind and tender; The thorn of life Is a fretul wife-I wonder what will mend her! Try Dr. Pierce's Favorite Prescription. Ten to one, your wife is cross and fretful because she is sick and suffering, and can-not control her nervousness w enthings go wrong. Make a healthy woman of her and the chances are you will make a cheerful and pleasant one. "Favorite Prescription" is the only remedy for woman's peculiar allis the only remedy for woman's peculiar all-ments, sold by druggists, under a positive guarantee from the manufacturers, that it will g ve satisfaction in every case, or money will be refunded. See guarantee on bottle wrapper. Large bottles, \$1. Six for \$5.

Whatever purpose a pump may serve in a dairy, it does not account for the milk in the cocoanut.

Fits: All Fits stopped free by Dr. Kline's Great Nerve Restorer. No Fits after first day's nee. Marvelous cures. Treatise and \$2.00 trial bottle free to Fit cases. Send to Dr. Kline, 931 Arch St., Phila., Pa.

"Gobemouches" is the name given to scandal lovers in England.

"Not Bulk, but Business!"

is the way a Western man put it in expressing to a friend his complete satisfaction in the use of Dr. Pierce's Pleasant Purgative Pellets. So small and yet so effectual, they

Consumption.

Prof. Buhle of Bonn, in a recent paper on consumption of the lungs, states that in his opinion the most frequent manner of contracting this malady is from a diseased person through the sputa, also through the glands, exfoliations from the skin, or any way in which the poison may appear on the surface and be transplanted by means of pocket handkerchiefs, washing, etc. The fact that attendants in hospitals who have the care of consumptives are seldom attacked with the disease, convinced the writer that it is not the air through which the germs are carried, but it is communicated in another mode; in fact, the way in which the members of the family kiss and fondle the patient and handle his linen. From one member of the family the special germ which excites the disease goes to another. Instances can frequently be found, on inquiry, where the parents transmit the disease to their children; in such cases, the family physician should put in his word of warning.

Miss Nellie Gould, a charming young lady, the eldest daughter of Jay Gould, has lately been distressed by the cranky courtship of J. M. Traber, of King's Creek, W. Va. 'fraber has been writing love letters to her, has sent her sweetmeats, and lately he caused a notice of her engagement to him to be published. This capped the climax of audacity in Jay Gould's opinion and both he and his son George have been at pains to denounce Traber as a scoundrel.

Scrofula

Probably no form of disease is so generally distributed among our whole population as scrofula. Almost every individual has this latent poison coursing his veins. The terrible sufferings en-dured by those afflicted with acrofulous sores cannot be understood by others, and their grati-tude on finding a remedy that cures them, astonishes a well person. The wonderful power of

Hood's Sarsaparilla

in eradicating every form of Scrofula has been so clearly and fully demonstrated that it leaves no doubt that it is the greatest medical discovery of this generation. It is made by C. L. HOOD & CO., Lowell, Mass., and is sold by all druggists.

100 Doses One Dollar

HILLIN ZOFFUELE

LYDIA E. PINKHAM'S

The following words, in praise of DR. PIERCE'S FAVORITE PRESCRIPTION as a remedy for those delicate diseases and weak-ses peculiar to women, must be of interest to every sufferer from such maladics. They are fair samples of the spontaneous pressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been tored to them by the use of this world-famed medicine,

JOHN E. SEGAR, of Millenbeck, Va., writes: "My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians with-out relief. She took Dr. Pierce's Favorite Prescription and it did her more good than \$100 THROWN AWAY.

THREW AWAY HER SUPPCRTER. Main South States of the time; this I have laid aside, and feel as well as I ever did."

her to promise that if the handcuffs were removed she would not be violent. she faltered out in a voice choked with sobs, "I will really be good, if they take these things off." It is needless to say that "these things" were taken off.

Courage of Women.

In courage the ordinary woman says the Augusta Gazette, greatly outstrips the ordinary man. Whether it be reckless, unconscious, or sublime, the element of personal courage that affects a fit at the intrusion of a mouse knows no fear in the face of a real dan-A lady who would not venture ger. A lady who would not venture from her rural front door alone was often met abroad leading a 3-year-old child by the hand. When asked if she considered the infant's presence a protection, she answered: "In a measure, yes; for when I am alone 1 feel that I have no right to be away, and would run from a shadow, but if I were attacked with this child I would defend it to the last." Some persons will account for this on maternal instincts. But the lady was not related to the child and she was unmarried.

When Basy was sick, we gave her On When she was a Child, she eried for Castoria When she became Miss, she along to Cast When she had Children, she gave them G

Giants of The Past.

An opinion was current in the last century, says a writer in Popular Science, that our ancestors, at some time in the past, were the equal or superiors in size to the largest men now to be found. M. Henrion presented to the Academie des Inscriptions, in 1718. . memoir on the variation in the size I man from the beginning of the

In the Whole Hideous Catalogue

Of diseases, there were none which, previous to the discovery of Hostetter's Stomach Bitters, offered more formidable resistance to ters, offered more formidable resistance to the old fashioned modes of treatment than the group of maladies which, under the col-lective name of malarial disease, afflicted en-tire communities that suffered hopelessly. Chills and fever, dumb ague, ague cake and billious remittent were once regarded as well nigh incurable. Now it rejoices the hearts of thousands who reside in districts periodically subject to the visitation of mahearts of thousands who reside in districts periodically subject to the visitation of ma-laria, to feel certain that in the Bitters they possess a certain defense against the scourge, a sure means of expelling its poison from the system. To the settler in the far west, the new emigrant thither, and to travelers and tourists by land and sea, the possession of this pleasant safeguard is a guaranty of safety from diseases which they might vain-ly seek from any other source.

A Popular variety of four-in-hand-all

Gen. Howard Believes in Moxie.

A lot of it was ordered to his residence, a few days ago, in San Francisco. It is now being used by our prominent hard working millionaires and business men, who have a great amount of business worry and care. It takes away nervousness that succeeds nervous overstrain, where stimulants were used before and obtained only a temporary steadiness the Moxie does it better and as a food, leaving no reaction or injury more than beefsteak. The Moxie has to be taken like a food and as often, simulants oftener. We hope the Moxie will succeed. It is said the old soakers are getting to take to it quite ardently.

Tom (writing to Ted): "As for the perch, they bit with their usual veracity."

Restoring Weary Minds.

The judges of the court of Arepagus in Athens, when bothered with a cause they couldn't unravel, disposed of it, by ordering the parties to appear again in a hundred years, and then proceed to restore their weary minds with a dose of Allen's Iron Tonic Bitters. All genuine bear the sig-nature of J. P. Allen, St. Faul, Mina.

all the all the medicine given to her by the physi-cians during the three years they had been practicing upon her."

THE GREATEST EARTHLY BOON. The 'Favorite Prescription' is the greatest earthly boon to us

Mrs. May GLEASON, of Nunica, Ottawa Ca. Mrs. May GLEASON, of Nunica, Ottawa Ca. Mich., writes: "Your 'Favorite Prescription' has worked wonders in my case." Again she writes: "Having taken several bot-tics of the 'Favorite Prescription' I have re-gained my health wonderfully, to the astonish-atten. Ag to the quites of my household.

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their ensy-going and indifferent, or over-busy doctor, separate and distinct disease, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

distressing symptoms, and instituting comfort instead of prolonged **3 Physicians** FaileD. Mrs. E. F. MoRGAR, of No. 71 Lexington St. East Boston, Mass., says: "Rive years, ago I was dereadful sufferer from uterine troubles. Having exhausted the skill of three phy-scients, I was completely discouraged, and so weak I could with difficulty cross the room alone. J began taking Dr. Pierce's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-en-enclose for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have earneetly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the blso required for the 'Medical Adviser,' and had applied the later at ready.''

JEALOUS DOCTORS: A Marvelou's Cure-Mrs. G. F. SPRAGUR, of *Crystal, Mich.*, writes: "I was 'roubled with female weakness, leucorrhes and thing of the form of different physicians, and spent large sums of momey, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally told my husband that if against the advice of my physician. He got me six bottles of the market of the prescription, also six bottles of the 'Discovery' and four of "Favorite Prescription,' and I have been a sound woman for four was troubled in the same way, and she cured herewilf in the same way, and she cured herewilf in the same way, and she cured herewilf in the same way.

THE OUTGROWTH OF A VAST EXPERIENCE.
